

## SERVICE LEAGUE WILL HOLD OPEN AIR MEETING

TO USE LAWN MONTAGUE HOME TUESDAY.

## Sunday Was Churchless Day in City on Account of Influenza Epidemic.

No club meetings or social events are canceled for this week. Those announced last week have been postponed on account of the epidemic of influenza. No church circles are holding meetings this week, and Sunday was not only a churchless day, but perhaps for the first time in the history of Chattanooga, a churchless day. The Central Baptist church had on its bulletin board the following notice: "Closed to help win the fight against influenza. You are invited to the Bible school and other services when it becomes safe for us to gather together again."

About the only gathering moving on schedule is that of the volunteer nurses, leaving the Volunteer Life building at 7:30, and returning in the evening. Among these are many professional, practical and experienced nurses, as well as those who have qualified for the service as emergency nurses.

Some of the meetings for this week which have been postponed, are the Women's auxiliary of the First Baptist church for today, the Gap. A. P. Stewart chapter U. D. C., regular meeting of today. Regular meeting of the Council of Jewish Women and the Glenn Martin missionary society.

The Women's service league which meets every Tuesday morning in the Manufacturers' association rooms, will hold an open air meeting at the home of the president, Mrs. D. P. Montague, 149 East Terrace, in case the weather is inclement. The broad veranda at the Montague home can be used for the meeting.

No dances will be given this week on account of the quarantine and on Wednesday at the different churches will not be held.

The Nancy Ward chapter D. A. R. and the Shakespeare club for Thursday have been postponed indefinitely and the Junior High entertainment for Friday.

All Saturday night events have been called off. Even the groups of children who often congregated to have circus or other play shows in their back yards, have postponed these cherished events, as there is some member of most every group sick. Besides, school has closed and the commissioner discourages the gathering of children in any community.

## Children Ory FOR FLETCHER'S CASTORIA

Sequel To Love For Doll

Maternal Instinct Greatly Developed by Teaching Children to Love their Dolls.

The little child's doll is mother to the most pathetic fairy. And in the years that pass the doll fades into the petals of a June rose, to evolve the most wonderful of all transformations.

And now comes a more serious period when the joy of real motherhood should be as tranquil as best effort can provide.

This is accomplished with a wonderful remedy known as Mother's Friend. An external application so penetrating in its nature as to thoroughly lubricate the myriad network of cords, tendons, nerves and muscles just beneath the skin of the abdomen.

It relieves the tension, prevents tenderness and pain at the crisis and enables the abdomen to expand gently. The muscles contract naturally after baby arrives and the form is thus preserved.

It should be applied daily, night and morning, during the period of expectancy. By regular use it enables the abdomen to expand without the usual strain when baby is born. Naturally, pain and danger at the crisis is less.

You will find Mother's Friend on sale at every drug store. It is prepared only by Bradfield's Regulator Co., H-1714, New York, N. Y. They will send you an instructive "Motherhood Book" without charge. Write them to mail to you. Do not neglect for a single morning or night to use Mother's Friend. Obtain a bottle from your drug store today by all means and thus fortify yourself against pain and discomfort. (Adv.)

kept constantly on the move. At no place were there any congested crowds, yet more people were out than for many a day. Walking is considered one of the most healthful of exercises, and the gasless Sunday and the ideal weather contributed their full quota to this end. Only at the drug stores could be found people who were still, and they were waiting for prescriptions and medicines. Long into the night people strolled and strolled, without one indication of a panic. If the grip loses its grip on this city next week walking and fresh air will have played its part well.

WEAK, RUN-DOWN WOMAN Tells How Vinol Made Her Strong.

So, Kaukauna, Wis.—"I was weak, all run down, tired all the time, and had asthma so I could hardly keep around and do my housework. After everything else had failed to help me, Vinol built me up and made me well and strong."—Mrs. Jay Parker.

The reason Vinol was so successful in Mrs. Parker's case is because it contains the necessary elements to create an appetite, aid digestion, make pure blood and create strength. It is the best and cod liver peptones—iron and glycerophosphates in Vinol—that do it—you will not be disappointed if you try it. For sale by J. Anderson, druggist, and druggists everywhere. (Adv.)
